- Lagos, Nigeria

SUMMARY

A dedicated and results-oriented front-end developer with a strong foundation in web development, seeking to leverage my experience and expertise to create engaging and responsive user interfaces and web applications. Committed to staying updated with the latest technologies and best practices, I aim to contribute to a dynamic team in delivering exceptional digital experiences.

EXPERIENCE

Web Developer 01/2021 - Present
Freelance

- Developed custom websites and web applications for clients, showcasing proficiency in relevant web technologies
- Implemented designs and optimized user experiences, ensuring seamless functionality across devices and browsers.
- Demonstrated expertise in integrating third-party APIs and platforms to enhance website functionality and performance
- Collaborated closely with clients to understand their requirements and deliver tailored solutions
- Built a portfolio of successful projects with positive feedback from clients

Software Developer Intern 11/2023 - 02/2024
Fatherland Global Corporation

- Worked on the backend development team to design and build web applications and API endpoints using Laravel
- Designed and developed database, and created schemas using MySQL and MySQL workbench
- Contributed to the development of fatherland community app, and performed regular testing with Postman
- Participated in and contributed to strategy meetings, code reviews and debugging activities

Frontend Developer Intern 05/2021 - 05/2022
Orsul Technologies Ltd ↗

- Coded multiple webpages and implemented frontend logic using HTML, JavaScript & Vue.js
- Used CSS to convert ui/ux designs into fully responsive user interfaces optimized for different screens and devices
- Worked closely with the design team to develop website features to enhance overall user experience
- Implemented pixel-perfect design prototypes and regularly optimized frontend code
- Connected frontend components to the backend using RESTful APIs
- Used knowledge of SEO techniques to improve site rankings
- Used caching and lazy loading techniques to reduce website load time by 20%
